

How To Play KENO

Turning Stone®
RESORT | CASINO

HOW TO PLAY

- 1 Decide how many games to play. Write down the number of consecutive games you want to play where indicated. See Multi-Race Keno for details.
- 2 Select your numbers. "X" over your choice of numbers on the top and/or bottom of your ticket. You can mark 1-15 numbers.
- 3 Make your wager. Write the dollar amount of your wager on the top right of your ticket where indicated. The more you wager, the more you can win! See the pay chart in this brochure for the wager/winning ratios. Minimum bet is \$2.
- 4 Count your numbers. Write down the number of spots you picked and the wager in the box indicated on top (conditioning).
- 5 Pick your pay rate. Unless you write "S" for special rate, your ticket will be paid at the regular pay rate.
- 6 Present your ticket. Bring your ticket and wager to the Keno counter or present it to a Keno Runner. Runners are available throughout the casino for your convenience.
- 7 Check your ticket. When you receive your processed ticket back from the Writer or Runner, it is your responsibility to check your ticket to ensure it has been properly marked before the game starts.
- 8 Watch the Keno boards. Keno boards are located throughout the casino. Twenty numbers are drawn at random for each game and then illuminated on the Keno board. When the game is over, the last number drawn will flash continuously to indicate the game is over.
- 9 Check your numbers. If you have matching numbers, refer to the pay rates in this brochure to see if you win. Keno Writers will be happy to assist you in checking your ticket. If you give your ticket to a Keno Runner, any wins will be confirmed at the Keno counter, where our Keno computer checks all tickets quickly and accurately.
- 10 Collect your winnings. All winnings will be confirmed and paid out by our Keno Writers and Runners.

Need a little more help?
Our Keno Staff is here to serve you, so don't hesitate to ask if you have questions.

► PLEASE CHECK YOUR TICKET!

Errors must be corrected before the start of the next game. The numbers and conditioning registered in the Keno computer shall govern.

We are not responsible for Writer errors. We are not responsible if requests are turned in too late for the current game.

Keno Runners are here for your convenience and will assist you in placing your bets. Turning Stone Resort Casino is not responsible if tickets are presented too late to be written for the current game or for tickets that are mis-marked.

If you are playing "Special Keno, please check your tickets before you leave the counter to see they are marked with an "S". Winning tickets not marked with an "S" will be paid as a "Regular" rate.

All Keno winnings are subject to applicable IRS rules and taxable reporting thresholds. When required, a W-2G must be completed. You will be required to provide two forms of identification, such as a Driver's License and Social Security card. If proper identification is not available, Federal Taxes will be withheld from the gross winning at the current rate.

All non-resident aliens winning a reportable amount are subject to a 30% withholding tax. We are required to deduct such amount from your winnings before payment.

Maximum aggregate payout to all players participating in each game is \$100,000. When total win of all winning tickets of \$5,000 or more in one game exceeds the maximum aggregate payoff of \$100,000, the winnings for all these tickets will be pro-rated as percentage of their total game win. All winning tickets valued at less than \$5,000 each will be paid according to the Keno Payout Brochure.

PAY RATES

Regular Keno

Play \$2 minimum or more. The more you wager, the more you can win. When playing 5 games or more play \$1 per game and it will pay on half the \$2 wager.

Special Keno

Play your favorite numbers and win even bigger. With Special Keno, your ticket winnings will be based on a different pay scale. You'll need to catch more numbers to win, but when you do, you'll win BIGGER! To play Special Keno, mark your ticket with an "S."

We write down our seven different ways of play on one ticket for one game, and place a wager on each. Seven different ways to win! You can wager \$1 per way instead of the minimum \$2, but only on tickets containing 3 or more Ways. \$1 tickets will pay on half of the \$2 wager.

Our ticket becomes a winner based on the pay rates for each way. All or a combination of these tickets win.

- 6-spots - Three or more numbers will pay.
- 2-spots - Two numbers in any one group will pay.
- 4-spots - Two, three or four numbers will pay.

WAY TICKETS

Way Tickets are the favorite for most experienced Keno players. Way Tickets are like playing several tickets on one game. This is done by grouping numbers.

Each group acts as its own ticket with its own winning scale. There are literally hundreds of different combinations you can play on a Way Ticket.

Way Tickets may be played at half rate.

\$2 TOP & BOTTOM

First, mark your ticket with a "T" on the upper half and "B" on the bottom half, as shown, and place your wager. The game is based on the spread of 20 numbers drawn in the game that fall in the top ("T") portion of the ticket and the bottom ("B") portion of the ticket. After all twenty numbers are called, count how many appear on the bottom. You now have the "catch." When the catch matches any listed in the pay-off chart, you win!

KENO HISTORY

According to an ancient scroll, Cheung Leung introduced the game we now call Keno about 200 years B.C. in China. Cheung's city was at war for several years and supplies for his army were failing. The people of his city refused to contribute anymore to the war fund, so Cheung created a game of chance to produce revenue to provision his army. The game was an instant success and the city was saved.

Spreading throughout China, the game was used to help fund the building of the Great Wall. The game became known as the White Pigeon Game because carrier pigeons used to send the results (winning numbers) from the games in the larger cities to small villages and hamlets.

Remaining basically the same, the game was brought to the United States by Chinese immigrants who labored on the railroads in the Old West.
